Are you concerned about the opioid epidemic in your community?

Join us for breakfast as we host **CDC Medical Officer Dr. John Halpin** to talk about epidemiology of the opioid epidemic in the Metro-Atlanta area

John Halpin M.D., MPH is a board-certified occupational medicine physician who serves as the medical officer for the Opioid Overdose Epidemiology and Surveillance Team at the National Center for Injury Prevention and Control. Dr. Halpin's focus has been in the areas of improving Prescription Drug Monitoring Programs, or PDMP's, with a focus on the use of PDMP data for public health surveillance purposes, as well as investigating the rise of overdose deaths attributable to illicitly manufactured fentanyl.

You will learn about the CCCG's new CARF Accredited Intensive Outpatient Program for Substance Use/ Co-Occurring Disorders, and you can share your information about treatment options for SUDs.

Care and Counseling Center of Georgia
