\$40 for 3 CE hours

## Objectives:

- Define the symptoms and behaviors of the family disease
- Learn to assess and develop a simple treatment plan for families
- Understand the 4 stages of family recovery and the interventions appropriate for each stage
- Identify negative counselor attitudes that interfere with family work and how to address them

*Janet Fluker is a Licensed Professional Counselor of 20 years. She served as director of The Family Recovery Center at MARR Addiction Treatment Center for 9 years. She now works at Decatur Family Psychiatry. Janet believes emotional healing comes through the power of relationship. She works from an attachment-based model recognizing that we learn how to be in relationship from our families. As adults we bring these patterns to our closest relationships.*
